Under the leadership of Louis Spering, President of Local No. 762, Journeymen Barbers' International Union of America, an army of organizers will be sent out to-morrow to induce non-union barbers to join the organisation. Conferences to-day between the officers or the local and C. N. Feder, First Vice President of the International, who came from Indianapolis, resulted in the division of Manhattan into three strike districts—the west side, cast side and Harlem. The Brenx will be a district by itself. The first step toward organization of the masters was taken to-day at No. 311 East Second Street, when employers whose shops are threatened met and put forward the East Side Masters' Association. It was said at union headquarters that the masters had made overtures looking toward aphitration, but the suggestion was turned down.
